PHYSICAL DESCRIPTION:

This building is a two-story, four bay, end gabled, two-part building with a small, one story frame addition on the north end. The house is built in the Victorian Gothic style. The core is a three bay, white stucco clad structure with a centered, cross-gabled roof. A single, four paned, round arched window is located under the front gable. A transom is located over the centered door. Plain, flush, brick chimneys are located at each end of the building

The north section is a two bay, two story extension, with a single entrance on the front facade. The resulting, rectangular shaped building is approximately 45' x 20'. A standing seam tin roof protects the building. A hipped roofed porch, supported by bracketed columns, runs the full length of the building. Windows are 6x1, with shutters on the front facade.

A small (6'x8'), one story, hip roofed frame addition with clapboard siding is attached to the north end of the main addition. It has a hip roof.

Classification: This Class II building faces south and is in fair condition. Although recognized as a contributing resource in the Center Square Historic District (determined eligible for the National Register), this resource is individually ineligible for Class I and thus is a Class II resource.
