**PHYSICAL DESCRIPTION:**

This residence is a Victorian Gothic style house with steep cross gables and a rear addition which forms a T-shaped plan. The core of the house is a three bay, two and a half story, cross-gable (wood shingles) house built c. 1850 that is clad in stucco. It has a window in its prominent centered gable, and the roof is framed by a strong molding. The door (third bay rather than centered) and all windows have a slight arch at the top. There is also a French wired transom over the door. The rear addition has an axis parallel to the core and end gables. There is a two story bay addition to one end of the addition. This addition maintains the pattern of the curved windows and the molding.

**Classification:** This house, including the rear addition, is an excellent example of Victorian Gothic and is a Class I resource.
